VETERAN PRINTER

IS 75 YEARS OLD. Daniel W. Tracy, for Years Foreman With The Bulletin, Reaches Anniversary.

At his pieasant home, No. 19 Penobscot street, where he has resided for many years past, Daniel W. Tracy, veteran printer, will today reach his 75th birthday. On account of Mr. Tracy's impaired health, there will be no public observance of the day, but there will be a large number of his friends whose thoughts will be with him on the occasion, and from none will more hearty congratulations come over reaching the three score ten and five years than his former associates on The Bulletin.

"Uncle Dan," as he has been affectionately known for many years past, while he was foreman of the newspaper composing room, was the first compositor engaged when the establishment of the paper was a fact, and for many years maintained a live interest and wielded an active hand in its progress. For over half a century he followed the printer's trade, which are learned in the Aurora office under the late John W. Stedman.

NEW STRAIN OF TOBACCO MAKES GOOD SHOWING. Refuses to Blossom, But Keeps Producing Leaves.

New Haven, Conn., June 12 .- An ineresting account of a curious new erain or "sport" of tobacco is given in the report of the plant breeder of the agricultural station here, male public today. In a field which con-tained many thousand plants of Hazel-wood Cuban tobacco, grown from seed carefully selected for years for its uniformity in production, there suddenly appeared two years ago three plants which, unlike the others in the field refused to blossom, but kept producing leaves. The owner, J. B. Steward them to the station greenhouse here. They blossomed about midwinter and yielded considerable seed. This seed was sown in the spring of 1913 and about one-third of an acre was planted with it.

All the plants resembled their imme diate parents and bore from 62 to 30 leaves instead of the 16 to 25 leaves usual in tobacco of this class. About 31 leaves per plant were harvested from this new "Stewart" type and only 18 from Hazelwood variety. From an equal number of plants the Stewart yielded 194 pounds of cured leaf to ev-er, 100 pounds of the Hazelwood.
